Passport Stations

Local Information Station

An introduction to the 2012 Pennsylvania Fishing Summary (Summary of fishing regulations and laws); fish identification, habitat, and how to catch them; and fishing opportunities unique to Hidden Valley and the South-central Pennsylvania region. This station will also provide an orientation for boys and their adult partner on the requirements for the Fishing Beltloop and Sports Pin.

Fishing Habitat & Handling Station

Section one has participants build a watershed to help them understand how to promote healthy places to fish and boat. Section two teaches the parts of a fish and how to handle and release them safely.

Fishing Knots & Rigging Station

Participants learn how to assemble a basic rigging- including how to tie a Clinch knot-that is environmentally friendly and how to identify baits, lures and flies that attract fish.

Casting Station

Following safety instruction, participants get their hands on rods with push-button spin cast reels for practical learning and practice casting at targets. Casting from a boat is also covered.

Smart Boating, Safe Boating Station

A virtual boat ride teaches participants the importance of wearing life jackets and how to select them properly; then it explores Reach, Throw, Row and Go rescue techniques.

Ready, Set, Boat Station

In this boating basics station, a special game of charades introduces participants to a variety of boating activities, while segment two teaches about essential equipment and how to load a boat.

Not a Station, but take advantage of the fishing in Sherman’s Creek

There are fish waiting to be caught, just down the hill from Rotary Lodge. Bring your rods and tackle so your Cub Scout can experience the thrill of catching a fish.

Before departing everyone must check-out at the Dining Hall.

Be sure to leave camp cleaner than you found it; “Leave No Trace”.
